

AMENDMENTS TO THE CLAIMS

This Listing of Claims will replace all prior versions and Listings of Claims in the application:

Listing of Claims

Claims 1-28 (Canceled)

Claim 29 (Currently Amended) A display apparatus comprising:

a display unit ~~adapted~~ configured to display ~~an~~ a color image;

a time setting unit ~~adapted~~ configured to set a time, the time to be set by said time setting unit can be changed by a user;

a detection unit ~~adapted~~ configured to detect whether the time set by said time setting unit is passed; and

an image size changing unit ~~adapted~~ configured to change ~~an image size of the~~ a color image to be displayed on said display unit to a monochrome image so as to warn the user that the time set by said time setting unit is passed, if said detection unit detects that the time set by said time setting unit is passed.

Claim 30 (Currently Amended) The display apparatus according to claim 29, wherein ~~said image size changing unit reduces and enlarges the image size of the image to be displayed on said display unit so as to warn the user that the time set by said time setting unit is passed~~ displays a current time or an elapsed time, if said detection unit detects that the time set by said time setting unit is passed.

Claim 31 (Currently Amended) The display apparatus according to claim 29, wherein said display apparatus is capable of being mounted on a user's head.

Claim 32 (Currently Amended) The display apparatus according to claim 29, wherein said display unit includes a liquid crystal display ~~adapted~~ configured to display an image, and a backlight source ~~adapted~~ configured to illuminate said liquid crystal display from behind.

Claim 33 (Currently Amended) A method of controlling a display apparatus, the display apparatus including (a) a display unit ~~adapted~~ configured to display ~~an~~ a color image and (b) a time setting unit ~~adapted~~ configured to set a time, the time to be set by said time setting unit can be changed by a user, ~~the~~ said method comprising the steps of:

detecting whether the time set by ~~said~~ the time setting unit is passed; and

changing ~~an image size of the~~ a color image to be displayed on ~~said~~ the display unit to a monochrome image so as to warn the user that the time set by said time setting unit is passed, if ~~it is detected that~~ the time set by ~~said~~ the time setting unit is passed is detected.

Claim 34 (Currently Amended) The method according to claim 33, further comprising a step of ~~reducing and enlarging the image size of the image to be displayed~~ displaying a current time or an elapsed time on ~~said~~ the display unit ~~so as to warn the user that the time set by said time setting unit is passed, if it is detected that~~ the time set by ~~said~~ the time setting unit is passed is detected.

Claim 35 (Currently Amended) The method according to claim 33, wherein ~~said~~ the display apparatus is capable of being mounted on a user's head.

Claim 36 (Currently Amended) The method according to claim 33, wherein said display unit includes a liquid crystal display ~~adapted~~ configured to display an image, and a backlight source ~~adapted~~ configured to illuminate said liquid crystal display from behind.
